### COMIC-STRIP DANCE WILL BE AFTER CARTHAGE-SOUTHERN CAGE-TILT TOMORROW NIGHT

#### Girls' Rally Committee Sponsors Affair To Raise Funds For New Band Uniforms

The comic strip dance tomorrow night after the cage-tilt game will initiate the first of a series of activities planned to raise money to buy new uniforms for the band.

Immediately after the S. I. N. U. vs. Carthage game, the students of the college will go to the Old Settlers gym in western Carthage to attend a homecoming of all the "funnies" characters. With such characters as Andy Gump, Tillie the Toller, Harold Teen, and Skoedix to talk and dance with, nothing but a hilarious evening should result.

The Girls' Rally committee who are in charge of the dance, is so tremendously anxious for a large turnout in order to give the "band uniform drive" a good send-off. For a long time students have been of the opinion that such a fine band as ours should be re-equitied. It is hoped that the students will avail themselves of the opportunity to have a good time while also helping a worthy cause.

Final plans are being drawn up by the rally committee with the valuable assistance of the Southern Knights to have all entertainment during the mixer. Prizes will be awarded the most humorous, beautiful, and unique costumes. The price of each ticket will be 75 cents. Those wishing advance tickets should see any member of the rally committee.

Students are urged to attend the dance in costume, the last they can go to the dance. Various groups are planning to go to this. Those remembering last year's Little Abner dance will recall large number of queer looking characters at the game last before the game.

Committees planning for the dance

### No Flu Epidemic in Carbondale; Colds Severe

Along with the various alarming reports of influenza epidemics which are spreading throughout the nation and also in nearby localities comes word reassuring news from the college health office. Dr. Marie Hendrich explicitly states that there is no flu epidemic in Carbondale. Although there have been many severe colds (between fifty and sixty students) are being treated daily for colds by the health service. This does not mean that every one is safe is the flu.

However, many things can be done to prevent such a thing as an epidemic from taking place. Perhaps one of the most useful precautionary measures is cold prevention. Here are some rules which should be correctly followed will lessen the danger of serious cold complications.

If you feel that you are coming down with a cold go to bed immediately. Drink plenty of water and fruit juices. Take a laxative if necessary. Eat lightly. Get plenty of rest and get adequate sleep. Of course, if these measures are of no avail, call the health office for medical assistance.

### LITTLE THEATRE TO PRESENT SHAKESPEAREAN PRODUCTION

For the first time in the history of the S. I. N. U. Little Theatre a Shakespearean plan will be presented on the stage of Shryock Auditorium, February 21. For the first time, the members of the Little Theatre are undertaking tragic drama. The choice of plays seems especially fitting at this point in the progress of world events.

Shakespeare's "Julius Caesar" will not be produced in the traditional style but rather in a modern, abbreviated version worked out by Orson Welles and his well-known Mercury staff. The Orson Welles version relates the original story structure, but numerous scenes have been omitted and others cut considerably.

The entire production will be done in a unit set of modern design, and the scenes lighting will follow a somewhat startling Mercury Theatre style.

Announcement of the personnel of the cast of the designer and technical staff, and additional details will be made in a later issue of the Egyptian. Students will be admitted on their activity tickets.

### COMMITTEE FOR PARITY PLANS 3-WAY POLICY

#### Vacation Campaign a Success, Mannle Reports

Hank Mannle, chairman of the committee to boost the S. I. N. U. biennial appropriation, reports favorably on results of the "accept-legislate" campaign during the Christmas holidays.

At a meeting last Tuesday, several members of the committee described

### SINU DEBATERS PLACE SECOND IN TOURNEY

#### Heinzman - Marshall Team Ranks High at Normal

A team from S. I. N. U., composed of Mary Heinzman and Isabelle Marshall, placed second in the championship group of debaters at the ninth annual debate tournament at Illinois State Normal last weekend.

Teams were divided into the championship group, Division I, and Division II, according to skill in speaking and rebuttal, organization of case, adaptation, and reasoning power.

Wesley Reynolds and Carl McIntyre, another Southern team, were in the championship division.

The twelve members from the college debating squad who participated competed with teams from thirty-six colleges in six states. Formal decisions were declared only in the championship class.

Dr. Orville Alexander, debate coach, Dr. Sherman Barnes, and Dr. J. W. Harris were the faculty members attending the tournament.

The subject debated by all teams was "Resolved that the nations of the western hemisphere should enter into a permanent union."

Mary Heinzman and Isabelle Marshall competed with each other in a no-decision debate on the same topic at last Tuesday's meeting of the Carbondale Rotary club. Teaming with McIntyre, who argued the affirmative, Richard Reid, while Marshall and Wesley Reynolds upheld the negative.

### MOREAU MAXWELL SPEAKS TO F. T. A.

At the regular meeting of the Future Teachers of America last Monday, Mr. Moreau Maxwell, who has a master's degree in archeology and anthropology from the University of Chicago, spoke on "The Aboriginal Population of Southern Illinois." His talk dealt mainly with the development of Indian cultures from the first wandering hunting band up to the large sedentary farming villages, and the outside influences that affected them.

Mr. Maxwell is associated with the college museum.

### COMMITTEE WILL PLAN LARGER FILM LIBRARY FOR SINU

Six members of the film library advisory committee held a dinner meeting and made plans for a larger film library at S. I. N. U.

It was decided to hold at least ten preview showings, in as many sections, of new educational film releases. These showings will be followed by a three-day workshop conference here on the campus at which some of the best qualified men in the United States will be present to demonstrate how to use film in the classroom.

All teachers in all fields will be invited to bring their motion picture problems with them for discussion.

Those who attended the dinner were: R. V. Jordan, superintendent of schools, Centralia; W. E. Johnson, Mr. Vernon Schuchman, L. C. Kerley, Vienna Township High school; Raymond Crowell, West Frankfort High school; Russell Rendleman, superintendent of schools, Union county; Miss Tirpah Reid, Rockwood schools. Also present were Fred Cagle, J. Cary Davis and C. C. Logan, the campus committee on motion pictures.

### CORNERSTONE LAID YESTERDAY

The cornerstone of the new Baptist Foundation was laid yesterday during the noon hour with Rev. E. E. Miller of Eldorado chairman of the Educational Council presiding.

Representing an outlay of \$40,000, the building will house the religious education classes, a library containing about 10,000 volumes of sacred literature, and a recreation center for students. When the entire Baptist unit is complete it will include a chapel and a larger recreation center.

Mr. Burdett H. Shryock of the art department at S. I. N. U. is planning the interior decorations and the sacred murals which are to be painted for the walls of the building.

As soon as the new building is in use the building now occupied by religious education classes will be converted into a boys' cooperative house.

The new foundation will be dedicated during college commencement week in June.

Henry 'Hank' Mannle contacts with legislators as "very encouraging."

The committee has decided to send a student lobby to Springfield to attend a meeting of the state appropriations committee as soon as it is organized and willing to receive visitors.

Tentative plans have been made to rally the student body in a united effort to spread more information throughout the state regarding Southern's request for parity in appropriations.

Three methods have been selected to accomplish this multifaceted:

1. Short talks before student organizations asking their support in the effort to see S. I. N. U. given a fair appropriation.
2. Meetings of county groups during which information and statistics will be given members of the groups.
3. It is hoped these chambers will carry the information to every city, town and rural community in this section of the state.

The Egyptian will run stories from time to time carrying up-to-date information about the progress of the S. I. N. U. appropriation. Tables and statistics will show clearly the apparent neglect of S. I. N. U. during the last decade, and reasons will be outlined for asking the General Assembly of Illinois to cease this neglect.

### SECOND MEETING OF IEA HELD LAST NIGHT

The second and last I. E. A. celebration assembly meeting of the year was held last night in Shryock Auditorium. Officers for the coming year were elected and other business was taken care of. The new officers of the I. E. A. will take their places in July of this year.

Miss Mary E. Zinsinger of the Alpha Training School is the president of the Southern division of the Illinois Education Association. Dr. T. A. Abbott is second vice president. Mr. W. C. Cline, Mr. George Branswell, and Mr. Ted Ragdale are delegates from Jackson county.

### Tri Sigs Initiate Nine Sunday; Pledge Seven

Nine girls were initiated into Sigma Sigma Sigma sorority last Sunday morning. The new initiates are: Helen Bell, Elizabeth Byrnes, Mildred Basson, Ruth Ann Edmonds, Janice Forth, Kitty Olsone, Frances Will, Margie Wilson, and Mary Ellen Yell.

Five girls recently pledged to the sorority are: Ruth Glick, Athena Kourdovakis, Betty Lampe, Dale Faurter, and Catherine Zies.

### Mrs. E. W. Reef, Traveller, Will Lecture to Kappa Pi

Mrs. E. W. Reef, formerly of the S. I. N. U. faculty, will lecture and show colored movies of her world tour to the members of Kappa Pi, Wednesday night, January 22, at 7:30 in the art room.

Members of the art fraternity invite all those who are interested to attend.

### STATE FINANCE DEPARTMENT RELEASES \$15,000 TO SINU FOR 30-ACRE LAND PURCHASE

#### Tract Bought With Remainder of \$30,000 Appropriated to College Last Spring

Plans for the purchase of the land west of the campus were brought to a climax Friday when officials of the State Department of Finance gave a signed warrant for \$15,000 to President Renner-Pulliam and Business Manager Edward V. Miles to complete the transaction with Mrs. Lorina Thompson, owner of the site.

The purchase of the thirty-acre tract was completed Saturday after an examination of the deed by a committee of three, representing state departments. In order to save time in completing the transaction, Mr. Pulliam represented the Department of Registration and Education; Mr. Miles the Department of Finance, and State's Attorney Glenn Brown the attorney general.

Located just west of the campus and south of Chestnut street, this additional acreage will give the college a block of land running west from the present campus to Oakland avenue. The tract includes the Thompson grove area which was purchased several months ago for \$45,000. The purchase of the land was made possible by the release of the remaining \$14,000 of the \$30,000 appropriated to the college several months ago. Governor John Stiefel released \$15,000 of the appropriation early this fall.

### FARM AND HOME WEEK SET FOR FEBRUARY 3-7

#### University of Illinois Ag. Department Will Cooperate

The Southern Illinois Farm and Home Week will be held on the S. I. N. U. campus February 3 to 7 under the direction of the department of agriculture and household arts of S. I. N. U., with the cooperation of the College of Agriculture of the University of Illinois.

The highlights of the program for the first days are:

- Monday, February 3—Placing of exhibits.
- Tuesday, February 4—Gardening day, with Lee A. Summers, University of Illinois, directing a joint discussion for both men and women.
- Wednesday, February 5—Livestock day. Earl Smith, who is president of the Illinois Agriculture Association and vice president of the National Agriculture Association, will make an address at 9:15 a. m. in Shryock Auditorium.
- At 8 o'clock the Agriculture club will have a banquet at the First Methodist church in Carbondale. Mr. Smith will be the speaker, and Mr. Stewart C. Chandler, assistant state anthropologist of Natural History Survey, will address slides on "Southern Illinois in Color."
- Thursday, February 6—Soils and Crops day.
- Friday, February 7—Rural Youth day, which will be arranged on the class schedule of the college.

Anyone invited to attend any session of the program.

ARTHUR E. HUNTER, 46, is located in Reception Center, Company D, Ft. Sheridan, Ill. He volunteered for the army on Nov. 19, 1940, and has been sent into the medical corps of the army.

### Warren and Chance Go to Springfield

Professor F. G. Warren of the education department and Mr. Paul Chance, superintendent of the Marion county schools, were Southern Illinois representatives at a meeting of the Illinois Curriculum Steering committee held at the Illinois State Normal University at Normal, Wednesday of this week.

The committee, which is composed of delegates from the universities and state colleges of Illinois, had as its object this year the study of the progress already made in rural school curriculum with the hope of making a showing during the next year.

Mr. Charles C. Stadman, assistant superintendent of public instruction, is chairman of the committee.

### Student Loan Fund Increases

The S. I. N. U. Student Loan Fund increased during the year from \$1,956.71 to \$3,312.43, according to the annual report of the business manager, Edward V. Miles, Jr.

Five hundred and sixteen dollars of this increase came from a special student health loan fund which Dr. Ben Fox has established by returning to this fund all of the fees which he collects from college students for medical attention.

A maximum fund of \$45 from the college loan fund is available to any student who has established a satisfactory record for at least one year. As a matter of policy the loans are treated as emergency loans and for short terms.

This loan fund is controlled by the business manager, dean of women, and dean of men.

### FARM AND HOME WEEK SET FOR FEBRUARY 3-7

#### University of Illinois Ag. Department Will Cooperate

The Southern Illinois Farm and Home Week will be held on the S. I. N. U. campus February 3 to 7 under the direction of the department of agriculture and household arts of S. I. N. U., with the cooperation of the College of Agriculture of the University of Illinois.

The highlights of the program for the first days are:

- Monday, February 3—Placing of exhibits.
- Tuesday, February 4—Gardening day, with Lee A. Summers, University of Illinois, directing a joint discussion for both men and women.
- Wednesday, February 5—Livestock day. Earl Smith, who is president of the Illinois Agriculture Association and vice president of the National Agriculture Association, will make an address at 9:15 a. m. in Shryock Auditorium.
- At 8 o'clock the Agriculture club will have a banquet at the First Methodist church in Carbondale. Mr. Smith will be the speaker, and Mr. Stewart C. Chandler, assistant state anthropologist of Natural History Survey, will address slides on "Southern Illinois in Color."
- Thursday, February 6—Soils and Crops day.
- Friday, February 7—Rural Youth day, which will be arranged on the class schedule of the college.

Anyone invited to attend any session of the program.

ARTHUR E. HUNTER, 46, is located in Reception Center, Company D, Ft. Sheridan, Ill. He volunteered for the army on Nov. 19, 1940, and has been sent into the medical corps of the army.

### PLACEMENTS OFFICE REPORTS OPENINGS

A great number of vacancies in numerous fields and in various combinations have been received by the Placement Office. These are apparently not enough qualified people at present to fill these vacancies.

Among the positions open are two in coaching, two in commerce; English, Latin, and physical education combination, art and music, English and history, and many others including salesmen in various fields.

4. To assist in the general student body the desirability of high intellectual and an unbiased stand on all issues.

5. To promote the whole program of the professional fraternities, so that membership in the various fraternities will be considered as the goal toward which students will move. Perhaps one step in this direction is the explanation to freshmen of the purposes of the professional fraternities as a part of freshman orientation.

6. To add to the prestige of the university through the co-ordinated action of the alumni of the various professional fraternities. This last goal might mean that during Homecoming and throughout the year the Council could serve as a clearing house or a dissemination point of information for the alumni. This would greatly add to the whole. Co-ordinated action from the leading alumni in the field is badly needed for the promotion of our financial and educational standing at Southern.

### MOVE TO FORM PROFESSIONAL INTER-FRATERNITY COUNCIL

Recognizing the need for some kind of coordinated action among the professional fraternities on the campus, the Alpha Omicron chapter of Pi Delta Epsilon, national honorary journalism fraternity, has initiated a move to organize a professional inter-fraternity council.

James Chandler will act as chairman of the committee in charge of the formation of the Council. Also on the committee are Margaret Reid, Patricia Mercer and Ruth Berkeley.

The makeup of the first Council will consist of one member from each professional fraternity, according to present plans. This will mean a group of about sixteen representatives.

The aims of the Council as outlined by the committee are six in number. They are:

1. To work as a unit toward the establishment of S. I. N. U. as a Liberal Arts College.
2. To promote a greater number of educational and scientific programs on the campus.
3. To further harmony and cooperation between the fraternities themselves.
4. To assist in the general student body the desirability of high intellectual and an unbiased stand on all issues.
5. To promote the whole program of the professional fraternities, so that membership in the various fraternities will be considered as the goal toward which students will move. Perhaps one step in this direction is the explanation to freshmen of the purposes of the professional fraternities as a part of freshman orientation.
6. To add to the prestige of the university through the co-ordinated action of the alumni of the various professional fraternities. This last goal might mean that during Homecoming and throughout the year the Council could serve as a clearing house or a dissemination point of information for the alumni. This would greatly add to the whole. Co-ordinated action from the leading alumni in the field is badly needed for the promotion of our financial and educational standing at Southern.

economic, if not an immediate military, into becoming an active belligerent.

# PHILLIPS '66' DATE BACK TO JANUARY 29

## Southerners Down Cape Indians 43 to 33; Lose To Evansville Aces In Last Minute Rush 48-47

### Evansville Squad Wins After Trailing Throughout; Maroons Play Best Game of Season Despite Loss

The Southern basketball team lost its second game of the season Wednesday night when they fell before a mighty Evansville College team at Evansville, Indiana, by the mere one point margin of 48 to 47.

**Lead Lost**

Trailing from the start and apparently beaten, the Purple Aces of Evansville suddenly cut loose with a sensational rally when behind ten points and with twenty-four minutes to play to win in the last minute and produce a Hoosier hysteria among the some 2,500 fans which crowded the Armory in Evansville. Though the Aces were constantly threatening the Southerners as a result of their superior height, they never made any really strong bid for victory until their winning rush in the final minutes of the contest. Three different times during the game the Maroons held a ten-point margin over the Hoosier Aces, only to have the Aces pull up close to the Southern lead at the time.

This game marked the eighth consecutive win for the Aces as against the record of five wins and two losses for the locals.

**March Surprise**

The Maroons surprised the Hoosier fans as they jumped out in front of the favorite sons of Evansville at the very first of the game on scores by Fred Campbell and Johnny Sebastian. The fast breaking offensive of the Southerners was their main weapon, while the Indians relied on their rangy quintet for rebound shots. At the half way mark, the Maroons were in the lead by 27 to 24.

The second period began much as had the first half. The Maroons were off with the opening whistle to pile up a 24 to 26 advantage over the Aces. However, the Aces in an offensive spurt pulled up to within two points of the Maroons before the Southern attack began to move out in front. Much of the second half consisted of both teams running pell-mell up and down the floor, with neither being able to connect for any great number of points by steady plodding. The Southerners pulled out into a 47 to 37 lead with merely four minutes remaining in the ball game. At this point, Coach Bill Sykes sent two sharp-shooting reserves into the game; these reserves harvested six points in short order on long shots from out on the floor. Most of the final four minutes was played under the Evansville goal with the Aces rebounding their own shots at the time, the smaller Carbondale players being unable to get control of the ball. With only a minute and twenty-five seconds of play remaining in the game, Harold Montgomery, Ace forward, hooked to a one-hander to give his team their margin of victory. During the final minutes of play the Maroons three times after time at the hoop but were unable to connect for the much wanted goal.

Willard Doernsen, brilliant Ace forward, and the highest scorer in the

diana college basketball circles, paced his team with his nineteen points, while Montgomery, his running mate at the forward post, was good for eleven totals.

For the Maroons it was Fred Campbell who completely stole the show with his one hand shots which accounted for thirteen of Southern's total points. Harry Durham, lanky reserve center, in playing his best game of the year for the Maroons, was second highest with nine; while Bob Correll followed with eight.

In going to the Evansville, team the Southerners played what was probably their best game to date. From start to finish the game was a "toss-up"; the return game between these five should really be something to see when they meet at Carbondale on February 26.

## Fights Flu To Defend Title

Willie Hoppe, stricken on event world's three cushion billiard meet in Chicago, and Nurse Irene Smith follow news of tourney. He hopes to enter late and defend his title.

# SPORTS SECTION

## COX SCORES AGAIN

This action photo taken in the Southern-Cape game last week caught Verdie Cox (9), Maroon forward, just before he let go one hand shot which was good for two more points for the Southerners. John Sebastian (11), Evansville center (22) are in to back up the play while Branch, Chicago guard, tries to stop Cox's shot.

## Conference Notes

**By BILL GASTZ**

All is not rosy among the Huskies' ranks at De Kalb this week. Coach McKinnis is faced with the problem of finding a man to replace Lee Bauer, star forward of the Northern Teachers. Bauer, a transfer from Valparaiso, has been rated ineligible for college competition after a technical ruling on his eligibility was found by Coach Cogdall of Normal. Bauer, second highest scorer on his team, will bow out of competition Saturday night when his team faces Old Normal. Three Coach Cogdall and Coach McKinnis should get together and purchase their headache and pines in gross lots. ... Coach Appell also learned that one of his eldus stars, LaVerne McMillan, has transferred to the west coast. California University took the ace away last week where he will register at the beginning of the new semester. ... Bill Glenn, gridiron hero of Eastern, has transferred his scoring tactics to the hardwood where he appears to be doing equally well. ... Centrals must have monopoly on high scoring men. ... Dwight Edelman apparently is well on the way to capturing high honors in state high school competition. John Scott, wheels destined to repeat his success of last year when he captured scoring laurels of the IAC. ... Here is one for the book. ... Several years ago a diminutive player reported for football practice at Ohio State only to be told he was too small and that he should confine his activities to the cheering section. This week Paul Brown returned to that same school. ... this time as head coach of a school that once refused him as the player. Brown is making one of the biggest bumps possible for a coach. ... from high school in the "Big Ten."

## CORRECTION

In last week's paper in the story on I. A. C. conference teams, reference was made to Ray Hanson as the basketball coach at State Normal. Mr. Hanson is not the coach at Normal, but is at Western Teachers of Maumeb. Mr. Joe Cogdall is the coach of the twice-champion Normal cage team.

## Lawson Will Speak to Y.M.C.A. Tuesday

Dr. Douglas E. Lawson of the education department will speak to the Y. M. C. A. members at its meeting next Tuesday evening at 8 o'clock. His subject will be "Profilence." All students are invited.

**ROBT. MACMILLAN, '37**  
is supervisor of all work in Belleville public schools.

## NEBRASKA TEAM ADDED TO SINU GYM SCHEDULE

The 1941 scheduling for the Southern gym team was completed this week when the University of Nebraska squad was booked for a meet with the Maroon team on March 10. The game will be held at the University of Nebraska in Lincoln. This brings to three the number of "bigtime" schools on the schedule of the Maroon "muscle-men" (the others being the University of Illinois and Chicago). The season opener will be at Chicago next week on Friday, January 24. An inter-squad meet was held Thursday of this week, however, in order to give some of the gymnasts an opportunity at real competition. Following is the season's schedule:

January 24, Chicago, there.  
February 1, Alumni, here.  
February 15, Turner Normal, of Indianapolis, Ind. here.  
March 8, University of Illinois, there.  
March 19, University of Nebraska, there.

## INTRAMURAL SIDELIGHTS

**By JOHN WHITESIDE**

Harwood Hall, and the Southern Ducees seem to be forging ahead in league competition. Both of these teams have two wins without a loss to their credit.

College team, the Cosmo-ran, played their Monday night when the powerful Dunbar team edged out a fighting Chi Delc Ave by a 27-25 score. The competition should be plenty hot in the Red league with Dunbars, Chi Delc, Chi, and the Southern. ... very strong. ... The Phantoms of 511 have also been heightened by the addition of "Rabbit" Harris as a forward.

Last year's champs, Carter's Aces, have shown themselves as strong as ever by trimming the E. B. A. with a 42-21 net. Harwood Hall and the House of Morgan will not let the Aces go to the top without a battle however.

In the White league, the Faculty is in the Cramer, have so far proved themselves very strong. The Jitneys are not so jittery when it comes to playing basketball. Both teams have shown up very favorably in their first games. The Sigma Beta team is not to be overlooked when the ball is rolled.

Many of the grandstand experts have chosen the Dunbars, Carter's Aces, and the Faculty as the strongest teams in competition. Don't let these fellows fool you, the strongest team will be the 177777.

Everyone is urged to come out to the intramural basketball games held in the New Gym on four nights a week, usually. There are really some fine teams entered in these leagues, and the games are worth anyone's coming out to see. There is no admission; not even activity tickets are needed. Games are run off in both the men's and the women's gym.

32-45 victory after dropping a 61-45 encounter earlier in the season.

IAC colleges won four of six non-conference games this week and now have a winter record of 23 victories against 12 defeats in competition outside the league. DeKalb's Huskies, dark horse contender for the conference crown this year and only loser five, to down Normal last night, suffered their first setback Friday night, 25-35 at Chicago Teachers. Saturday Normal walked the same Chicago team 47-16 while Carbondale edged out a 44-42 win over Illinois college. Macomb's Juniors shaded Cedar Rapids, Iowa, 33-30, but Carbondale took Cape Girardeau's Indians into camp to a 43-33 score. Charleston was the only other league team to fall besides DeKalb and the Panthers fumbled before a 53-46 onslaught by Indiana Central.

Below are the standings of the IAC:

	W	L	PCT
State Normal	1	0	1.000
Macomb	2	1	.666
Carbondale	1	1	.500
Charleston	1	1	.500
Chicago Teachers	2	2	.500
Lincoln	0	1	.000
Carbondale	0	0	.000
DeKalb	0	0	.000

## Southern Engages Carthage Team In First Conference Tilt Here Tomorrow Night

Meeting of Southern's Bob Correll and Carthage's Van Aaron and Webster; Central's Boys, a Feature

The Southern basketball team opens their I. A. C. Conference, schedule here tomorrow night when they play host to the nightbirds from Carthage.

**Good Carthage Team**

The Carthage quintet, one of the best in the school's history and led by Junior Van Aaron, Central's lad, boasts of a truly Ace and rapidly improving team. Until last Monday night the Lethers were undefeated in league play, but the Leathernecks of Maumeb, also with their

## SPORTS SHORTS

**By HARRY PATRICK**

Not to be outdone by the "T" for the past season, Coach McAndrew came up with one of his own in the Cape game ... it was a new out-of-bounds play which in three times it was used as good for two baskets. ....

Be it coincidence, a matter of fifteen minutes rest between halves, or the direct result of verbal inspiration, the Maroon cagers have of late been "bitting their stride" during the opening minutes of the second half ... they have virtually elbowed their last three games with these offensive spurts. ... Wierona in the Christmas Uppa Iowa, game they bagged 19 points in the opening seven minutes of the second half, they racked up some 24 points during the first six minutes of the second period in the Cape tilt. ....

Just another example of our need for physical expansion at S. T. N. U. was brought to light at the Cape game ... our seating capacity in the new gym is too limited ... after most of the available standing room had been filled, the gym doors had to be locked to prevent overcrowding, thus keeping out many fans who would have liked to see the game ... by the way, this isn't the first time for this necessitated "lockout" ....

When the Maroon gym team makes its first showing here February 1, against the Alums, the "muscle men" will be all decked out in new uniforms ... replacing the old white shirts and black trousers will be some sassy new all maroon tight-fitting tops, complete with maroon shoes and socks ... the only deviation from the solid maroon being the white "Southern" across the front. ....

Despite their 45 to 47 loss to the Purple Aces of Evansville Wednesday night, the Maroons hit the hoop for their highest percentage of shots made as compared with shots attempted for the season, they were averaging better than 34 per cent. ....

Rumors from the Charleston via the Eastern Teachers' News, has it that, consensus of opinion in Charleston is that the Southerners will this year be a sort of pushover for the Eastern cage team ... we shall see what we shall see. ....

Before the return to Carbondale of the basketball team on Thursday morning following the Evansville game, the six lettermen on the squad led by Bob Correll, famous left-hand paddle wielder, and Verdie Cox, who specializes in the backhand paddle swing, carried out the tradition of paddling the "flat tippers" which included some ten or eleven players, Manager Paul Green, and yours truly. ....

## PHILLIPS '66' DATE CHANGED TO JAN. 29

The recently scheduled basketball game between the Southern Maroons and the National-Champ Phillips '66' team which was originally scheduled for the night of January 24, then changed to January 29, has been changed back to the original date. The game, then, will be played at the local new gym on Wednesday, January 23, at 8 o'clock.

# TEACHING IS AN ART, SAYS PRESCOTT IN ADDRESS TO P. E. A. STUDY CONFERENCE

In a lecture last Friday afternoon to educators from this area, Daniel Prescott, of the University of Chicago, presented the theme, "The Growth of the Adolescent, and Its Implications for Education." Prescott stated that education is to a considerable extent, still an art; that he will always honor the intuitive teacher whose teaching is artistic. He said that Southern, as one of the staff members of the Progressive Education Association's commission on planning a better education for youth. The meeting held here Friday and Saturday was a study conference on the secondary school curriculum, sponsored by S. I. N. U. and the P. E. A.

Psychology in the past has not helped educators much, Prescott felt, because it has not translated information into behavior. "Pieces need to be put together," Prescott stressed the correlation between growth patterns, behavioral changes, and the fluctuation of the basal metabolism, or rate of energy release.

Additional addresses by Prescott and others brought to the conference reports of progressive education in other states, with suggestions for developing school programs of opportunity for American youth.

## Eugene Ulrich Elected Delta Rho Representative to Inter-Frat Council

At the last meeting of Delta Rho, Tuesday night, Eugene Ulrich was elected as the Delta Rho representative to the proposed Professional Inter-Frat Council. Plans were also discussed concerning the mathematics field day to be held on Saturday, February 16, at S. I. N. U.

During the program, Fred Applebaugh spoke on the number theory, "Circulating Decimals," and Mary Kay McMillan presented a discussion on "The Life and Work of Gauss."

## 1940 HOMECOMING BUDGET IN THE RED; DEFICIT IS \$25.65

The federal budget is not the only one that's hard to balance. According to a statement of receipts and disbursements from the business of 50c, the S. I. N. U. Homecoming this year shows a deficit of \$25.65.

The total receipts for Homecoming activities amount to \$2,651.32, included in this amount is the sum of \$57.83, profit from last year's Homecoming.

Total disbursements to date amount to \$2,824.01, or \$112.69 greater than the total receipts. By adding up the total \$43.38, making the entire deficit \$25.65.

Largest items of income were the Homecoming dance which netted \$1,759.90 and concessions which brought in \$474.55.

## W. A. A. Sponsors Annual Winter Banquet Wednesday

At one of the most successful gatherings of the Women's Athletic Association last Wednesday night, twenty-eight girls attended a Winter banquet held in Hank's Cafe. Primarily instituted for the new initiates, the banquet proved to be a formal yet meeting for both old and new members.

Toastmistress Mary Van Bibber conducted the evening's activities, introducing the speakers and coordinating the individual events. Initially presented was Helen Clements, president of W. A. A., who welcomed the new members and told them of the plan which they could purchase from Nancy Cooper, secretary-treasurer of the organization. In the next act, assistant athletic director of the Women's Athletic Department, pointed out the fact that although the banquet was given in honor of the new members, there were as many old members present. In her closing statements to the freshmen, she said, "You know that you will get as much out of W. A. A. as you put in."

Following Miss Clements' talk, Miss Mercer, basketball manager, reviewed the coming tournaments to basketball, and similarly Bobbie Gold, assistant tennis manager, discussed the forthcoming activities planned for table tennis enthusiasts.

Next, Marilyn Bryson informed the group of the spring conference of the Athletic Federation of College Women to be sponsored by the Women's Athletic Department at S. I. N. U. She stated that extensive plans are being made to accommodate the representatives of the Illinois colleges; and that the convention itself will be less formal than the conference held previously at other schools, in that it will take place at Giant City park.

The climatic address was given by Miss Davies, who presented a discourse on hockey, its history up to the present day, and some of her memorable experiences which have aided her in coaching the sport. Pointing out the fact that hockey is the second oldest sport in the world, records of it being found as early as 400 B.C., Miss Davies stated that the sport did not actually reach this country until 1901, when Constance Appleby, leading English player, came to this country and taught the game to the Eastern Women's colleges. Since that time hockey has practically become the most favored sport for women.

Bringing the history to a close, Miss Davies turned the trend of her address to hockey on the Southern campus. With a brief summarization of the fall activities, she concluded her talk with the announcing of the honorary hockey team and the presenting of the awards to the members.

In addition to the above, Mrs. Munsey and Miss McLane each gave an act, in general commenting on the events of the banquet, and wishing the new members a successful future in W. A. A.

The initiates present at the W. A. A. banquet held in Hank's Wednesday were Mary Jacobs, Mary Lee Seckes, "Korky" Kourdovilis, Lillian

## SPORT CANDIDS

Clubbing Her Way to the Top  
Margaret "Scottie" Shaw is the only freshman selected as a member of the Honorary Hockey team. No one can deny that Scottie earned the right to the honor, for her hockey techniques are among the best, and considering that she is only a freshman she has placed her name among those of other outstanding freshmen athletes. If you will remember, Scottie is the girl who replied "I'm a freshman" to the question, "What are you?" (during her hockey scrimmage) when the answer was supposed to be in the line of "Scottie, honey."

Undoubtedly Mary Lois Zenik and Annalee Mawdsley should also gain recognition for their skills, for they were chosen subs, as the only other freshmen included on the list.

Victims of Predominant Circumstances  
Joan Brooks and Mo Zengik were unable to receive their awards at the banquet Wednesday. Both girls are "under the weather" with the flu.

When Asked a Simple Question  
"Korky" Kourdovilis, freshman, gave a simple reply. The question: "Why don't we get letters in W. A. A.?" The answer: "We'll never get letters if we never answer any."

Netting Most of All  
Sore muscles and what-nots, basketball practice is getting results. At the Tuesday meeting of the upper classmen, guards and forwards were drilled in special techniques. Manager Miss Mercer presented some guard; and Dorothy Kelley slipped right or more falls through the hoop, and received for compensation stiff limbs beyond comparison with those of the sturdy oak.

"Audrey Sommer got regular, too, but a different sort, true enough, that her pass is straight as a bullet, but girls that were present noted that it was also as hard and as fast as one. There were times when her shot hit its mark with such a force that the ball either bounded halfway back to Audrey or that the receiving player herself bounded forward in a gently fashion.

But I'm bound to be back next week, too. P. S. A bit of something else. Credit should be given to Miss Davies, Gabby Van Bibber, and Florio Kuntz, the three of whom played the awards for the honorary hockey team members. Florio initiated the idea, the three of them developed it, Gabby designed the insignia, and Mrs. Van Bibber embroidered the emblem on the handkerchiefs. Hats off to all four of them.

Fulka, Mariah Zimmer, Mary Ratz, Helen Yates, Viola Rodemeyer, Phyllis Cox, Mary Ellen, Rosheen, Evelyn Sanders, Annalee Mawdsley, and Margaret Shaw. Some of the new members were unable to attend the meeting.

A new species of oak, first distinctly new tree found east of the Mississippi in 75 years, has been discovered by Dr. William H. Duncan, University of Georgia biologist.

## W. A. A. HOPS INTO ACTION WITH VIM

The W. A. A. had its first meeting of the year on Monday evening and certainly got off on the right foot. After a handshake rendered by some of the older members some new pledges were welcomed to membership in an impressive ceremony.

An announcement was made to the effect that we are to be hosts to the State convention of Athletic Federation of College Women next spring. Spring may seem a long way off but when there is work to do time does fly.

## Freshmen Find Need For Escape During Basketball

Freshmen basketball is really under way with so much exuberance that it could find an outlet in the name but took to the fire escape. It seems that the escapes were so dirty that some of the girls have taken to washing gym suits in the mid-week.

Last Monday teams were chosen and techniques were learned. From now on we have been pumped some interesting games. This week an average of 37 Freshmen were out playing. We are hoping that by next week we shall be those "37 varieties."

## Honorary Hockey Team Finally Revealed After Prolonged Secrecy

Clanking the fall and winter activities was the announcing of the Honorary Hockey team at the annual Winter banquet of the W. A. A. held Wednesday evening at Hank's Cafe. The team was chosen by the coach, Miss Davies, and the two hockey managers, Mary Van Bibber and Florio Kuntz, on the merits which were displayed by the players during the fall practices and tournaments.

Each of the honored girls was presented with awards consisting of white linen handkerchiefs with crossed hockey sticks, the year, and the position embroidered on them in red. After the issuing of the awards, Miss Van Bibber presented Miss Davies with a handkerchief having the same insignia, and the title Coach stitched on it.

The members of the Honorary team and the position played are as follows:

Left Wing—Margaret "Scottie" Shaw  
Left Inner—Mary "Gabby" Van Bibber  
Center Forward—Florio Kuntz  
Right Inner—Kay Ison  
Right Wing—Wesley Westwood  
Left Halfback—Miss Mercer  
Center Halfback—Marilyn Bryson  
Right Halfback—Nancy Cooper  
Left Fullback—Eileen Clements  
Right Fullback—Joan Brooks  
Goalie—Earlene Sutton  
Subs—Audlene Adams, Mary Lois Zenik, Annalee Mawdsley.

# UNIVERSITY HIGH CELEBRATES FIRST ANNUAL HOMECOMING; FESTIVITIES BEGIN TUESDAY

University High school will observe its first annual Homecoming beginning Tuesday of next week with a parade, a basketball game with Community High school, an alumni banquet, the coronation of a queen, and a dance. The festivities, to which all alumni of the school are heartily invited, are being planned by the U. High student council.

The State program will be the crowning of a Homecoming queen at the dance next Wednesday evening. The highlight of Tuesday's activities will be the annual basketball game with Community High school during which school spirit, spurred by the keen rivalry of the two schools, usually reaches its peak.

A fifteen-minute pep meeting in the Allyn auditorium Tuesday, the eighth hour will mark the opening of Homecoming, immediately following a parade led by the high school band and senior class members will form at the flag pole before the Main building and proceed from there downtown. Before the procession disbands, winners of the awards for the best-decorated cars will be announced.

The U. High Lynx are scheduled to meet the Carbondale Community Terrors in the men's gymnasium at 8 o'clock that evening. The preliminary game will be at seven. Admission is to be 50 cents for students, 35 cents for non-students. Activity and complimentary tickets will not be accepted.

An alumni banquet, to which all alumni and seniors of U. High are invited, is being planned for 8:30 Wednesday evening, in the dining room of Hank's Cafe. Tickets may be obtained from Brooks Kachell for the price of 50 cents.

A feature-length movie at 6:30 will open the dance and party for which the gymnasium and Little Theatre of the Old Science building have been reserved. Admission charge for alumni will be 25 cents.

Dancing and games are scheduled to follow until 9 o'clock. The climax

of the first homecoming will come with the coronation of the queen at that time.

The U. High student council is urging that all alumni participate in these festivities and help make this first homecoming a success.

# Facts Show S. I. N. U. Fulfills Duty of Training Teachers; Fairchild's Charges Untrue Southern Should Also Be Allowed to Edu- cate Youth of So. Illinois Who Do Not Wish to Teach

By OLIVE WALKER

President R. W. Fairchild of Illinois State Normal University in his editorial article "You're in Trouble in Education," which appeared in a recent edition of the Illinois State Normal University Alumni Quarterly, intimated that Southern Illinois Normal University is "not fulfilling the duties assigned to it as a teachers college."

Mr. Fairchild is obviously either ignorant of the facts of the matter or he is deliberately trying to oust Southern from its place among the teachers colleges of Illinois.

It is true that Southern, standing alone as it does in a territory which serves more than a million people, should become a liberal arts school, on a different basis than that upon which the teachers colleges stand. It should provide an opportunity to students in this area who desire to enter professions other than that of teaching.

It is not fair to say to them, "Not even though you pay taxes to help keep up the schools of the state, you cannot go to school near your own home, thus saving a great deal of money. You must either go far away to a great expense, or if you cannot afford to do that, stay at home because you do not want to become a teacher."

Illinois State Normal University has several colleges very near it to which students who do wish to teach may go. It is not "Not" if you cannot afford to go to that, stay at home because you do not want to be a teacher. Do not do "Not" if Illinois Wesleyan or to some other liberal arts school nearby."

Fairchild explains Generalvity. Mr. Fairchild states "Perhaps the desire for better material for athletic teams, for students of the college of type, or for scholars taking pre-law courses, most of whom would never even consider attending a genuine teachers college, may be responsible for developing this generous idea."

"That generous idea of... meaning 'the trend among the normal schools and teachers colleges of the nation to get away from their original and legally designated purpose of educating teachers only in order to become general colleges or universities with teacher education treated only in departments or divisions of these institutions.'"

Southern doesn't have to resort to such a practice as Mr. Fairchild hints. It is not a matter of money, as witness the fact that the sixteen graduating chemistry majors of the class of 1940 obtained graduate assistantships at such large universities as Illinois, Indiana, Ohio, etc. One of the boys was offered an assistantship at Harvard but was unable to accept it because he had previously accepted one from Illinois. Approximately ten other students from different departments received scholarships and assistantships in their respective fields.

Placements Office Report. According to reports from the Placements Office, which are not wholly complete, eight Southern alumni were placed on the faculties of colleges and universities during 1940, several of whom had graduated in 1940.

Southern can point with pride to a long list of men and women who have made their mark in the world and who have attained important positions. Among them are: John A. Stevenson, formerly a university instructor and now president of Peoria Mutual Life Insurance Co.; A. Chester Handorf, Dean of Harvard University; Mr. Charles Stanger, Council of Education; State Teachers' College, Bemidji, Minn.; Kent Keller, former United States congressman from Illinois; Robert B. Browne, director of extension of the University of Illinois; D. Watson Shreve, regional office in the Honolulu police department and

lecturer in the School of Police Administration at the University of Hawaii; J. Roy Levey, professor of Education and Sociology at Pacific University; Dr. Percy Bailey, professor of Neurology and Neurosurgery at the University of Illinois Medical School; Dr. Bailey was a member of the staff of the Harvard Medical School for six years and later a member of the staff of the Chicago Medical School; Fred L. Wham, United States district judge in the Eastern district of Illinois; J. Frank Daniel, head of the Zoology department at the University of California; Dr. Eugene Bricker, head of the Missouri State Cancer hospital at Fulton, Mo.; Dr. Bricker is the director of the department of Oklahoma Agricultural and Mechanical College; H. I. Featherly, professor of Botany and Plant Pathology, also at the Oklahoma Agricultural and Mechanical College; Roscoe Paulsen, president of Southern Illinois College of Medicine at Carbondale; Dr. Paulsen is a member of the Illinois Medical Society, and a great many others too numerous to mention.

School Men Alumni of S.I.N.U.

In 1933, twenty-four of the thirty-one county superintendents of schools in the area Southern serves were alumni of S. I. N. U. Eighteen of the fourteen teachers in the Carbondale city schools were Southern alumni, and seventeen of the thirty-one faculty members of the Benton Township High School had attended Southern. Seven of the faculty members at Eastern Illinois State Teachers' College are alumni of Southern, two at Illinois State Normal University, two at the University of Illinois, one at Western State Teachers' College, one at Northern State Teachers' College, and approximately twenty-five at Southern Illinois Normal University, all alumni of Southern.

Perhaps the following 1940 figures from the Placements Office would convince Mr. Fairchild that Southern does not carry on "a dissipated, diluted, and mediocre type of teacher education," but that it still trains for teachers on the wide:

Teaching high schools—78.  
Teaching elementary—113.  
Teaching rural schools—97.  
Attending graduate schools—19.  
Other employment—4.

(These figures are not wholly complete as all placements were probably not made known to the Placements Office.) Of the total of 325 who were recorded, 236 obtained teaching positions, 19 attended graduate schools, and only 46 were placed in other professions or industries.

Three-fifths Teach.

According to the director of placements, approximately three-fourths of each graduating class go into the teaching profession. Of the other one-fourth, many of the graduates are so good that graduate schools offer them scholarships and assistantships, many go on to graduate school on their own, and others are snapped up by new industries opening up. At the present time, there are few good people available to fill the openings known to the Placements Office, because most of the students are already employed. Southern students have been placed in positions scattered over the entire state and seventeen were placed in positions outside Illinois last year.

Selected by C. E. E. Last and one of the most important proofs that S. I. N. U. is fulfilling the duties of a teachers' college is that it was one of fifteen selected by the Commission on Teacher Education established by the American Association of Colleges for the Improvement of Teacher Education. The other fourteen colleges and universities represented are: Columbia University, New York City; Oberlin College, Ohio; Stanford University, Palo Alto, Calif.; Ohio State University, Columbus, Ohio; Univer-

## S. I. N. U. RADIO PROGRAMS

The McDowell Club, directed by Mr. David S. McIntosh, will sing next Wednesday afternoon at 2 o'clock over radio station WBBQ, Harrisburg. Dr. Clarence H. Cramer of the department of history will continue his series of weekly commentaries on world events.

The announcer is Dr. Richard L. Bayer.

WUPF "Consumers' Cooperatives in Southern Illinois" will be the subject discussed on the weekly forum program over WUPF from 10 to 10:30 a. m. last Tuesday. Participating in discussion with Dr. D. E. G. Lent, Mr. David S. McIntosh, and Edna E. East St. Louis.

Mr. George H. Weston

The agricultural radio program will be given over to the subject, "Dairy Herd Improvement Association Works." The program will be led by Mr. J. G. McCall, farm advisor of Jackson-Perry counties. Mr. McCall will have the assistance of practical farmers. The program will be concluded by Mr. R. E. Muckelroy, who will discuss timely agriculture events.

The announcer is Carl McIntire. Time, 6 to 6:30 Thursday morning.

ELMER HOLSHOUSE, 35

is located at 17 Fairview Drive, Westley Place, Edmeston, Ill. He is employed as an assistant research chemist for the Aluminum Company of America. He is married and soon will move into a new home near the edge of East St. Louis.

## WHAT DO YOU KNOW ABOUT LITTLE EGYPT?

### Dr. John Parrish Shows How Southern Illinois Labor Supply Is Adequate For Defense Industries

By BILL REYNOLDS

Dr. John H. Parrish of Southern Illinois' economic department has prepared a study of the labor supply of Southern Illinois to be submitted to the Construction and Labor Divisions of the National Defense Commission. The study was sponsored by Southern Illinois Inc., an organization to boost Egypt, which is starting a drive to attract national defense industries to this area.

The title of the study is "The Labor Supply of Southern Illinois Industrial Area." The paper presents by means of maps and tables, a complete case of Southern Illinois as a possible situation for new industries. The case is divided into six major parts.

Southern Illinois contains an industrial area, according to Dr. Parrish's paper, that from the standpoint of population is the largest reservoir of unemployed labor in the middle west. Around Harris, the unemployed labor supply is distributed as follows:

Within a five-mile radius of Harris there are 1,600 unemployed; within a ten-mile radius, 8,000 unemployed; within a fifteen-mile radius, 14,000; and within a twenty-five-mile radius, there are 23,000 unemployed. This shows the size and the availability of Southern Illinois' enormous labor supply.

In addition to these factors, the labor shows a high degree of mobility as the workers in this area are accustomed to commute to and from their work distances of five to thirty-five miles. This is explained by the fact that coal mining is Egypt's chief industry.

Another characteristic of our labor reservoir that operates in our favor is its comparative youth. In 1939, 61% of the youth under 35 in Southern Illinois were unemployed, while only 40% of the age group in the country as a whole was unemployed. This contradicts the popular belief that the workers in the coal fields are too old to operate high-speed modern machinery.

However, owing to this youthful age, the percentage of unemployed workers in Egypt is somewhat higher than in the state as a whole. According to the direct work relief and the employment office classifications, this percentage is up to as high as 60% in some of the coal fields. In other words, no objection to Southern Illinois' labor supply for national defense industries.

Another favorable characteristic of our labor reservoir is that it is comprised almost wholly of men. 89% of the gainful workers in Southern Illinois are men, which is due to the fact that the principal source of income, coal mining, excludes women workers. This would be an additional attraction for defense industries.

Dr. Parrish has compiled an excellent paper that shows the possibilities of our labor supply. This supply, together with the Crab Orchard Lake, the abundant fuel resources, the good highway and railroad facilities, and the proximity of the Ohio and Mississippi rivers for water transportation, should make our section recognized for its tremendous industrial possibilities.

ORIN KEPLINGER, 40,

is located at 3125 Brown, Alton, Ill. He is employed as research chemist at the Western Cartridge company, Alton, Ill. He and Mrs. Keplinger (Marjorie Huff) are having a grand time buying new furniture.

## Jeannette Allard Will

## Teach in Harrisburg

Jeannette Allard, Junior, is leaving S. I. N. U. this week to accept a teaching position in the fourth grade in the Harrisburg school system.

Mrs. Allard, who is from Vienna, has been an active member of the B. S. U.

## You Name It

By JOHN J. WHITESIDE.

A six bottle carton of coca-cola will be given to the person who submits the best name for this column. All you have to do is rush down to your nearest Buick dealer, purchase a new Buick, tear off the price tag, and send your Buick along with your title to this paper. The winner will be announced in chapel Wednesday morning.

If all the men are conscripted, you will hear something like this on your radio next New Year's day:

"Good afternoon, ladies. This is Get Thompson broadcasting directly from NYXZ booth in the Punch Bowl. Ninety thousand people have gathered here to witness this great battle between the Powder Puff Singers and the Lip Stick Smealers. The game is about to get underway, and the Singers are going to kick off. Substitution of the Smealers takes the ball and is hit very hard on the 20-twenty-yard line. She's injured—they are carrying her off the field—no wonder she has a runner in her stocking two inches long. The crowd is in an uproar. Myra Lombard just entered the stands. She's wearing a sash, no it's pink. It's a touchdown for the Smealers. They are lining up for the extra point attempt. Snick-top is going to kick, and it's—sable, I knew it was all the time. There's a riot going on over on the other side of the field. I can't tell what's going on—good-bye it's a man...."

When a dog bites a man, that no news, but when a bull grows a man that is news....

An intelligent looking (?) young man is awakened by the sound of an alarm clock. His better judgment tells him to arise, but his befuddled

the facts about tobacco and...

# Chesterfield's

MILDER, BETTER TASTE

To the keen interest of the thousands of men and women who visit our Chesterfield factories, we owe the idea of publishing the book, "TOBACCOLAND, U. S. A." It is a comprehensive picture story about the growing, curing and processing of tobacco, telling you why Chesterfields are MILDER, COOLER-SMOKING and BETTER-TASTING.

We are proud of the hundreds of letters from smokers like yourself who have seen "TOBACCOLAND, U. S. A." Many have asked us to send copies to their friends. We would take pleasure in sending you a copy—just mail your request to Liggett & Myers Tobacco Co., 1630 Fifth Avenue, New York, N. Y.

Capt. JOHN H. MILLER, America's No. 1 aviation pilot and pioneer of the world's only wingless mail plane route between London, A. J. and the Philadelphia Post Office, is shown here enjoying Chesterfield's new interesting book "TOBACCOLAND U.S.A."

*Do you smoke the cigarette that Satisfies  
...it's the smoker's cigarette*

brain tells him to grab a few winks. Sometime later he is awakened by the seventh sense. He glances at the clock, and is startled by the time. He forgets one sock; he lights a cigarette; he puts his trousers on over his pajamas; he misses three buttons on his shirt; he butchers himself trying to knock off his beard; he puts shaving lotion on his hair; he brushes his teeth with the shaving cream; his cigarette burns the table; he summons a cab; he ties one shoe; his coat is brushed with a hair brush; he ties a handkerchief around his neck; he puts a tie in his hip pocket; his cab arrives; he slips on his robe; he throws his overcoat in the closet; he stumbles down the stairs; he runs into the door; he approaches the cab. "Where to?" "Chapel, and hurry." .... A review of 1941... Biggest flop: Hitler's dinner in London.

Biggest hit: Homerun by C. H. Cramer.  
Hottest feud: Fairchild vs. Pullman.  
Biggest disappointment: The swallows didn't return to Capistrano.  
Biggest upset: Grandpa's soup.  
Taken for granted: F. D. R.  
Best news: This is the end.

## Swim Star in New Element

Katherine Rawls Thompson, former women's swimming champion, is starring in a new element—the air. She's pictured at left, above, after placing second in the Alcazar Trophy race at the 1941 All-American Air Meet at Miami, Fla. With her is Arlene Davis of Detroit, who came in third in the tiny Brocade "anti-air" plane shown in the photo.
